

## Dreadlocks

**Are you hankering after the traditional African hairstyle - rolled, twisted or matted dreadlocks?**

It has to be the ultimate, no-maintenance (or low-maintenance) option to letting your hair hang free and get on with your life for a few months!

Choose between *permanent* hot-beeswaxed or gelled locks, which can be combed out and regelled. The process takes between 3-6 hours depending on the length of your hair and style chosen.

## ...and Braiding

Give your hair a rest for a few months, with easy-to-manage, simple or special-occasion sculpted braiding. A full head of plaits can take anything up to 8 hours – well worth it for the dramatic change and beautifying result!

Prices for dreadlocks and braiding can be given once we've seen you and determined the amount of work involved.
